

NetSuite User Enablement Custom Training Sessions

As Go Live approaches, as you add new resources to your team, or as you take advantage of new features, your ultimate goal is to improve your business outcomes. Pairing NetSuite's intuitive interface with our User Enablement services leads to reduced learning curves, faster time to adoption and higher productivity.

The result? An empowered workforce rapidly achieving your goals.

Proof

Our customers attest that partnering with us to empower their teams helps drive user preparation and continuous success. Moreover, they cite training as a critical factor in their success with NetSuite.

Partnership

Our experienced education consultants take the time to get to know your organization and implementation so that your training experience is specific and customized to your configuration of NetSuite and your way of doing business.

Our services begin by partnering with you to develop a comprehensive plan designed to fit your schedule, online or onsite preference, and end user learning needs.

Saved Searches

- Specify criteria that narrow down your search.
- Indicate columns to be included in the search results.
- Limit the set of filters available on a search form.
- Set footer filters for the search results.
- Send email alerts when records are created or updated.
- Make a search available as a view.
- Create an expressions-based advanced search.

Report Customization

- Drill into detail from summary reports.
- Print, email, schedule and export reports.
- Choose columns to be included in the report, including formulae.
- Apply filters that narrow down your report.
- Determine how the reports rows are to be sorted.
- Control the audience for your report.

We provide short, targeted, role-based and process-focused sessions to ensure that your users don't lose valuable time away from the job and that they leave sessions feeling competent and confident.

Accompanied by reference materials that will be used both in training and for on-the-job support, our tailored training courses are engaging, interactive and designed to jump-start your team's performance and propel results.

It's amazing what can be learned in under two hours with an expert instructor, such as the sample agenda to the left for a **Creating Saved Searches & Report Customization** session.

Our Course Presentations and Materials Include:

- Key Customer Messaging
- End Use Process Flow
- Terminology
- Business Drivers/Pain Points
- Expected Results
- Step/Actions to Reflect Configured Process Tasks
- Customer Best Practices and Rules
- Hands on Practice
- Clear Call to Action for Students

To drive ongoing success and continuous learning, we offer refresher training, Q&A sessions, Bring Your Own Work labs, and eLearning options. Train-the-Trainer services are available if you would like us to enable your internal instructors to further educate your user community.

Commitment

We are committed to playing a key role in educating your users on how to most effectively use NetSuite to perform their jobs.
